Informed Consent for Chiropractic Care

Chiropractic care, like all forms of health care while offering considerable benefits may also provide some level of risk. This level of risk is most often very minimal, yet in rare cases, injury has been associated with chiropractic care. The types of complications that have been reported secondary to chiropractic care include: sprain/strain injuries, irritation of a disc condition, and rarely, fractures. One of the rarest complications associated with chiropractic care occurring at a rate between one instance per one million to one per two million cervical spine (neck) adjustments may be a vertebral injury that could lead to a stroke.

Prior to receiving chiropractic care in the chiropractic office, a health history and physical examination will be completed. These procedures are performed to assess your specific conditions, your overall health and in particular your spinal health. These procedures will assist us in determining if chiropractic care is needed, or if any further examinations or studies are needed. In addition, this will help us determine if there is any reason to modify your care or provide you with a referral to another health care provider. All relevant findings will be reported to you along with a care plan prior to beginning care.

- I understand and accept that there are risks associated with chiropractic care, and give consent to the examination and chiropractic care that the doctor deems necessary, including spinal adjustments, as reported following my assessment.

- I authorize and request payment of insurance benefits directly to Ryan Maxwell, D.C. I agree that this authorization will cover all services rendered until I revoke the authorization. I agree that a photocopy of this form may be used in place of the original. All professional services rendered are charged to the practice member. It is customary to pay for services when rendered unless other arrangements have been made in advance. I understand that I am financially responsible for all charges not covered.

X-Ray Authorization

As your healthcare provider, we are legally responsible for your chiropractic records. We must maintain a record of your x-rays in our files. At your request, we will provide you with a copy of your x-rays. Digital x-rays on a CD will be available within 72 hours of any regular practice hour day. Please note**:** X-rays are utilized in this office to help locate and analyze vertebral subluxations. The doctor of Silver Lining Chiropractic does not diagnose or treat medical conditions; however, if any abnormalities are found, we will bring it to your attention so that you can seek proper medical advice.

By signing below you are agreeing to the above terms and conditions.
